Pact

Nobody notices when you quit. Your friends will.

Built by **Gligorco Gligorov** for **8x**

THE PROBLEM

Habits die quietly.

Day 4. Nobody noticed.

THE IDEA

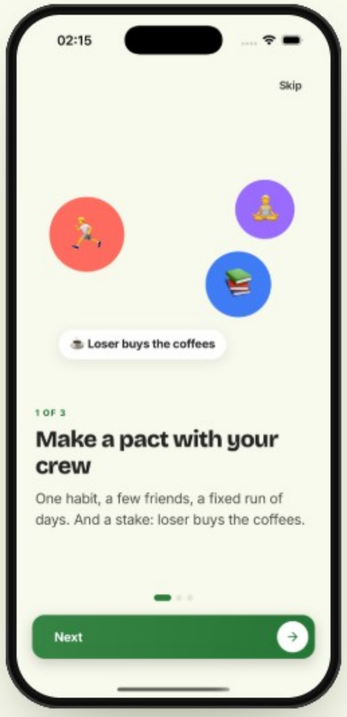

Friends, a stake and daily proof.

DA BE CL AN

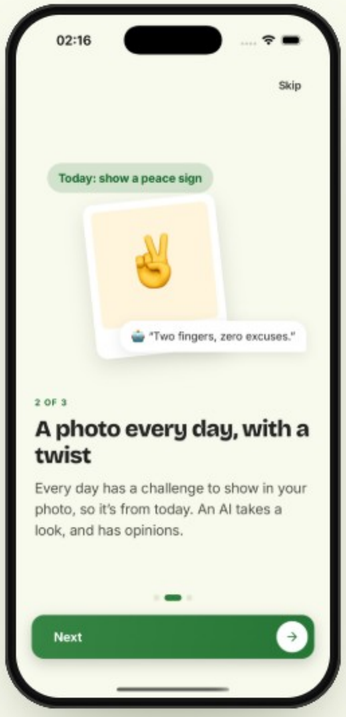

☕ Loser buys the coffees

HOW IT WORKS

Three steps. One crew.

1 Make a pact together

2 Prove it with a photo

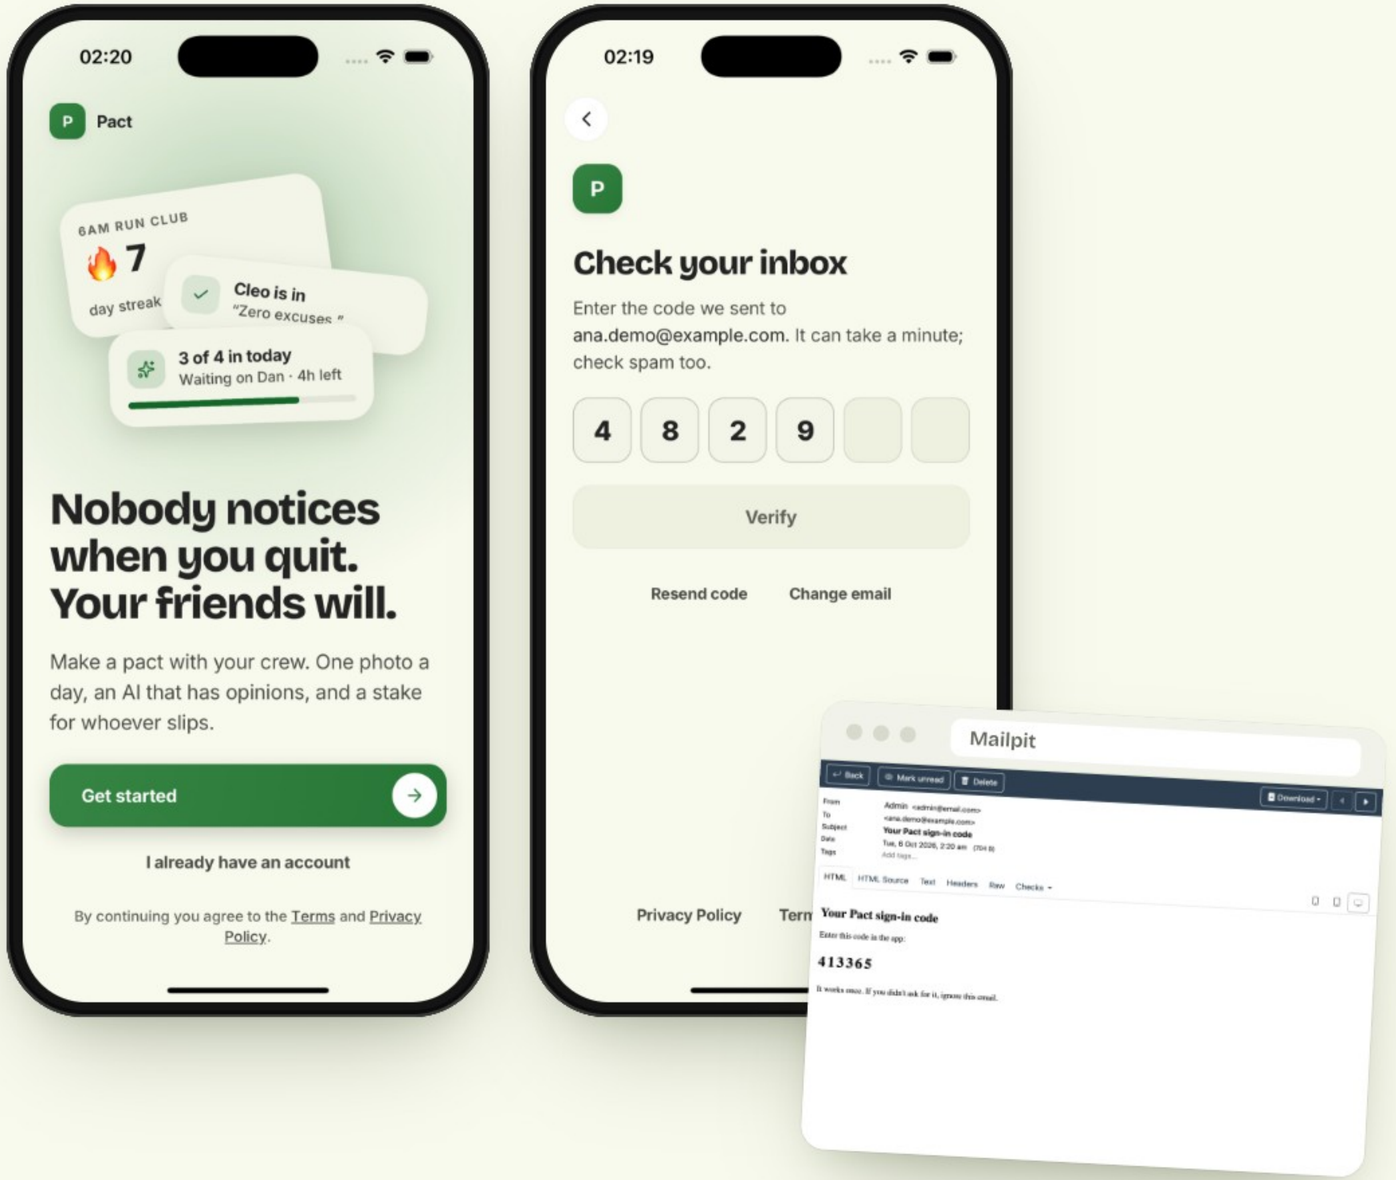

3 Keep the chain together

GETTING IN

An email code. No passwords.

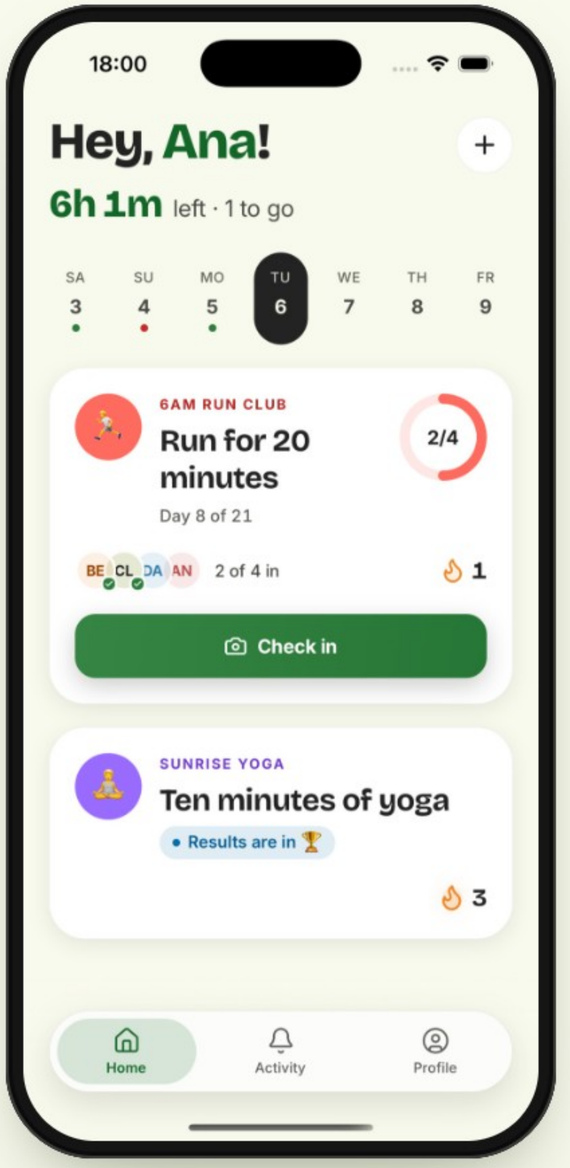

4	8	2	9	1	6

HOME

Every crew, at a glance.

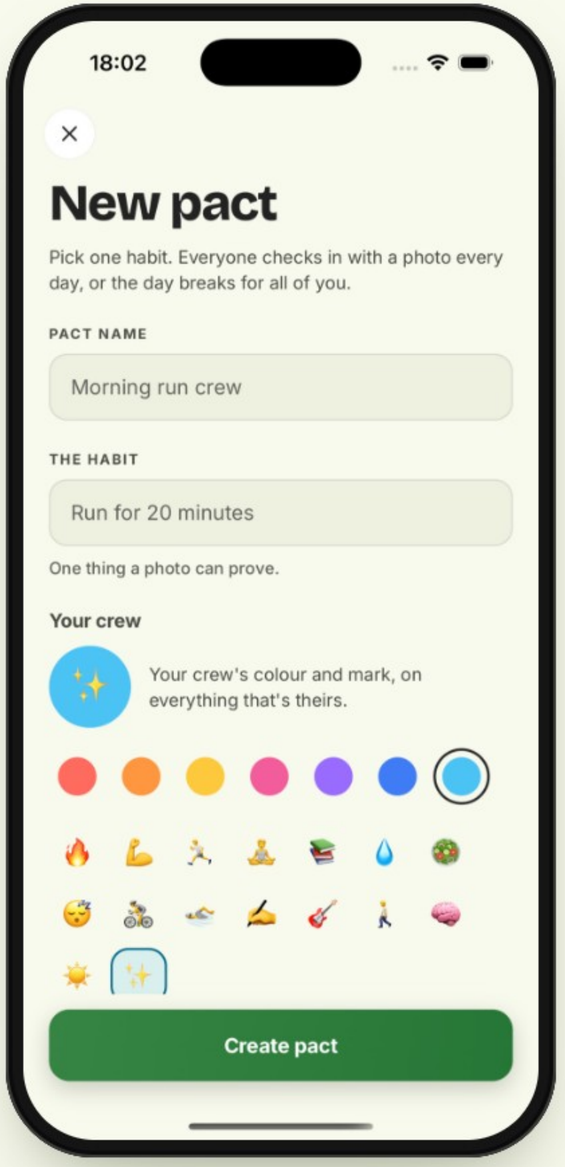

- ⏱️ Time left today
- 👥 Who's in, who isn't
- 🔥 The crew's streak

CREATE A PACT

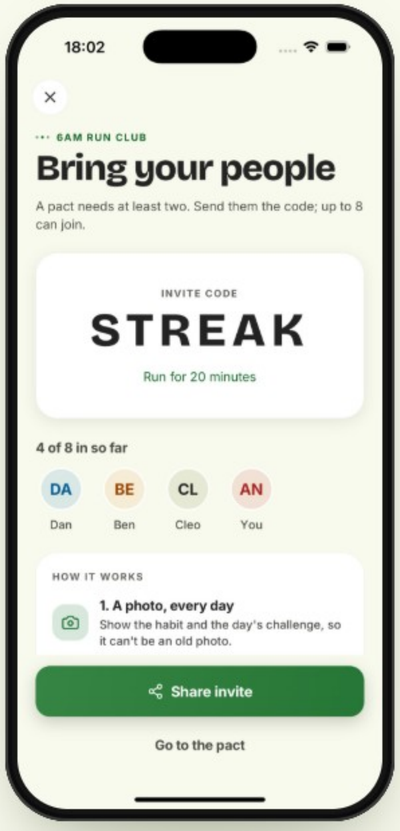

One habit. Your colours. A stake.

☕ Loser buys the coffees

INVITE

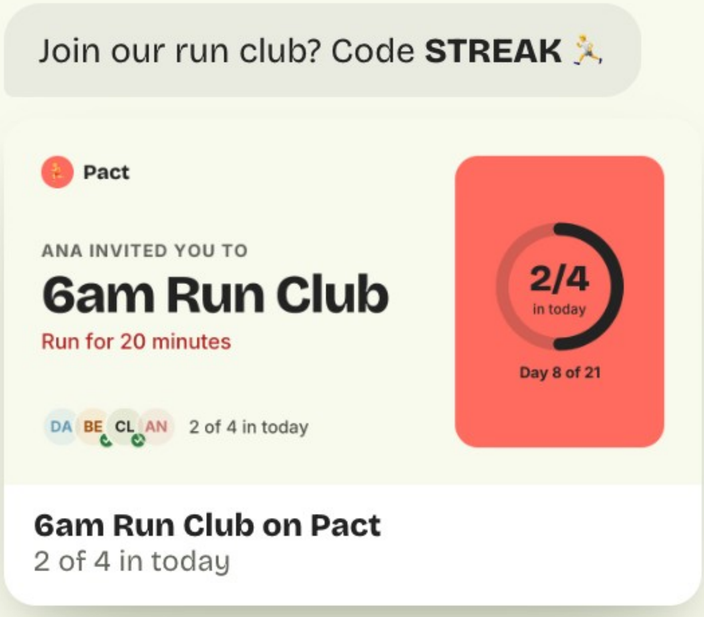

One code brings the whole crew.

THE DAILY CHALLENGE

An old photo can't pass.

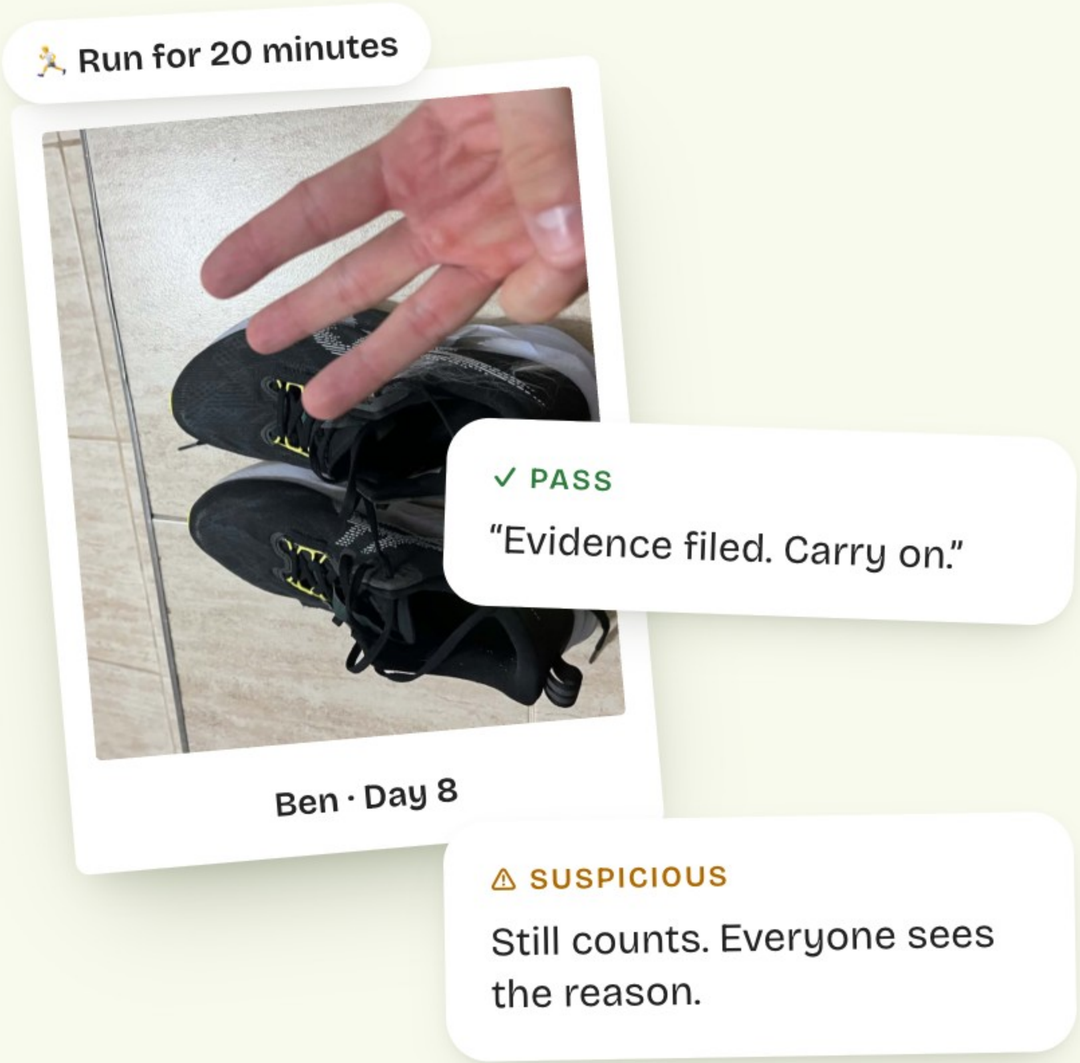

DAY 6	Make a peace sign	✌️
DAY 7	Include a shoe	👟
TODAY	**Cross your fingers**	🤞
DAY 9	A surprise	?

THE AI JUDGE

The AI advises. The crew decides.

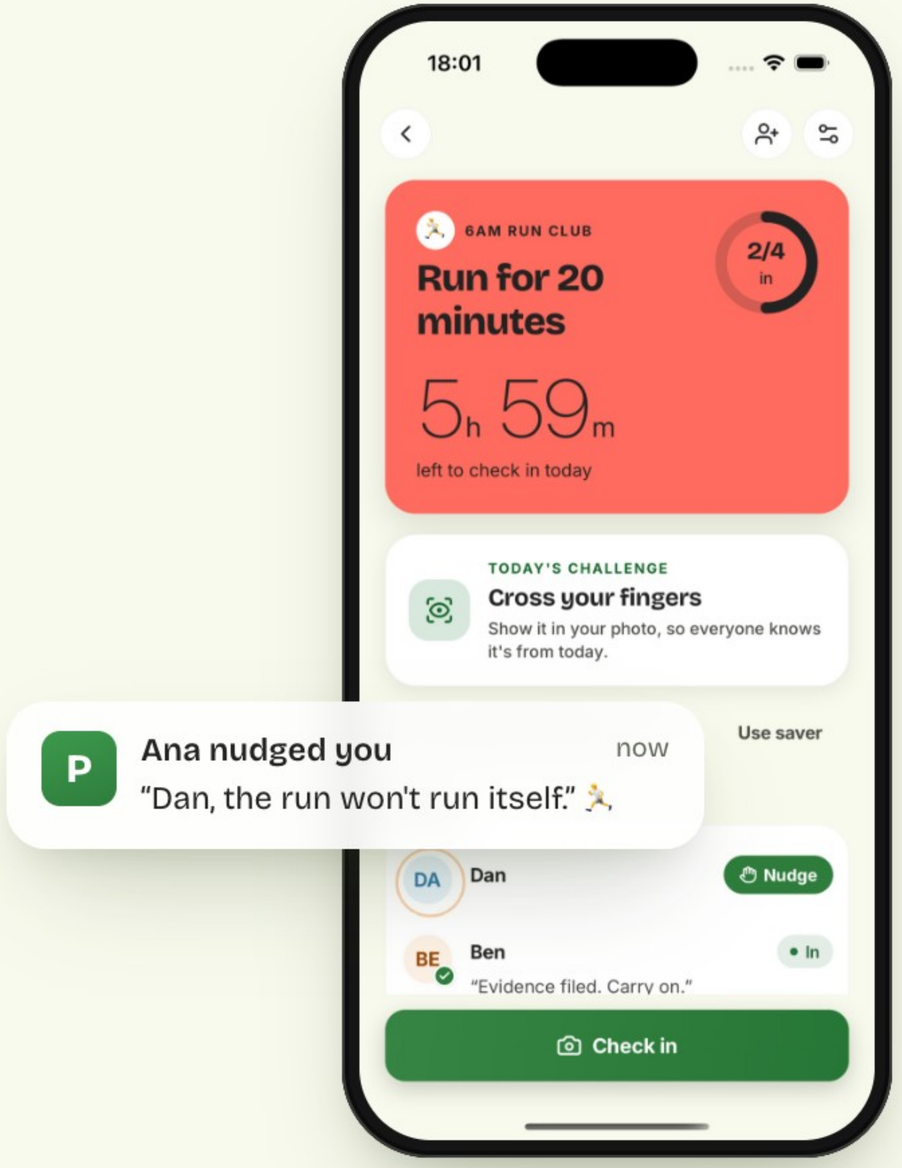

A verdict and a deadpan caption. It never fails anyone.

THE BOARD

The clock is ticking. Nudge who's missing.

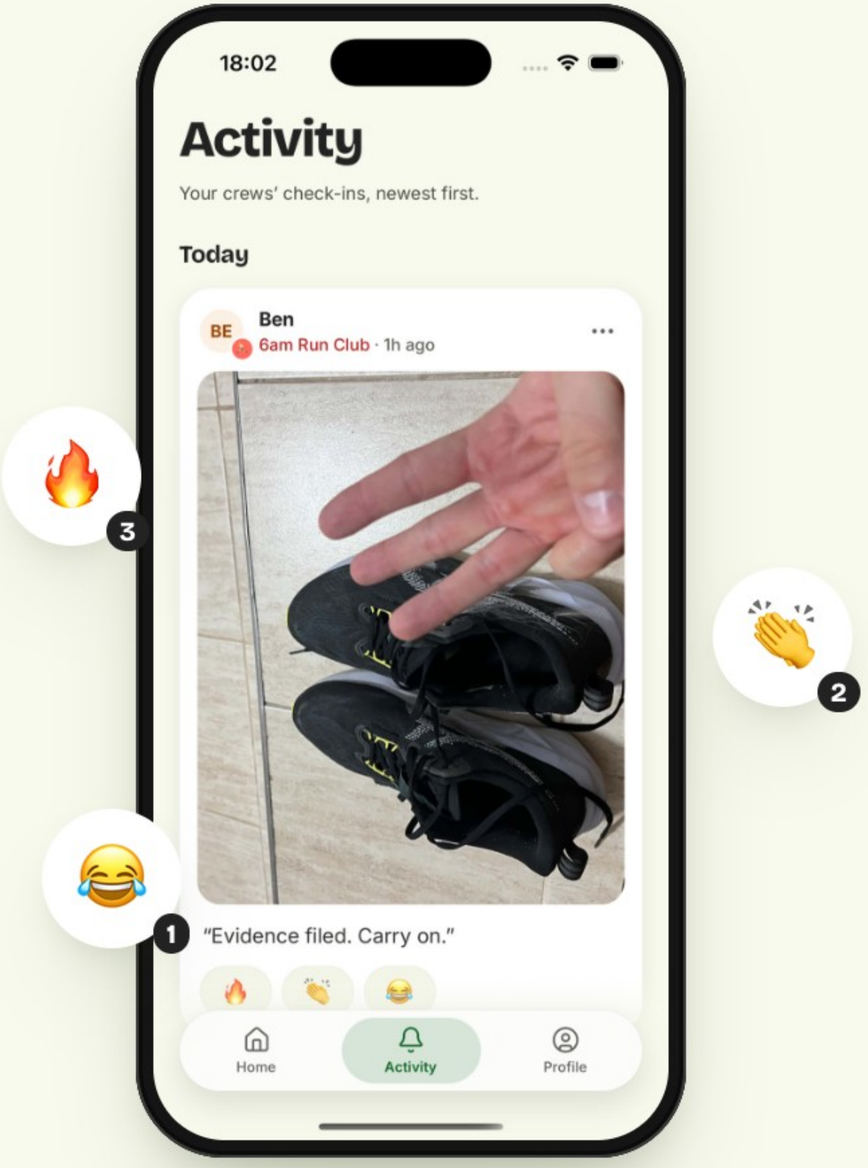

🛟 One saver per pact keeps the chain alive

ACTIVITY

The crew's day, in one feed.

Every check-in, the AI's one-liner, and reactions.

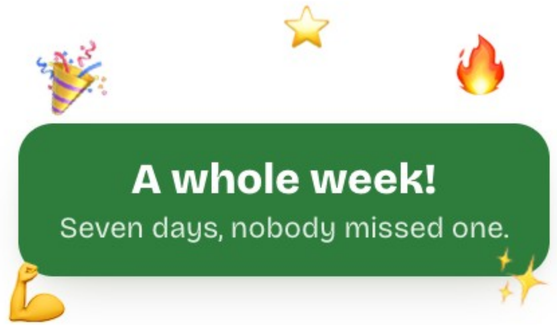

THE FUN LAYER

Small moments that feel alive.

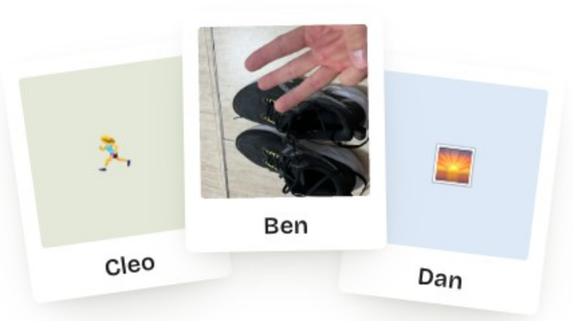

A living streak flame

It grows as the chain does: a spark, burning, blazing.

Crew complete

An emoji burst when the last one is in. Milestones at 3, 7 and 14.

The crew wall

Your photo flies onto today's wall, next to your crew's.

THE FINALE

Dan buys the coffees ☕

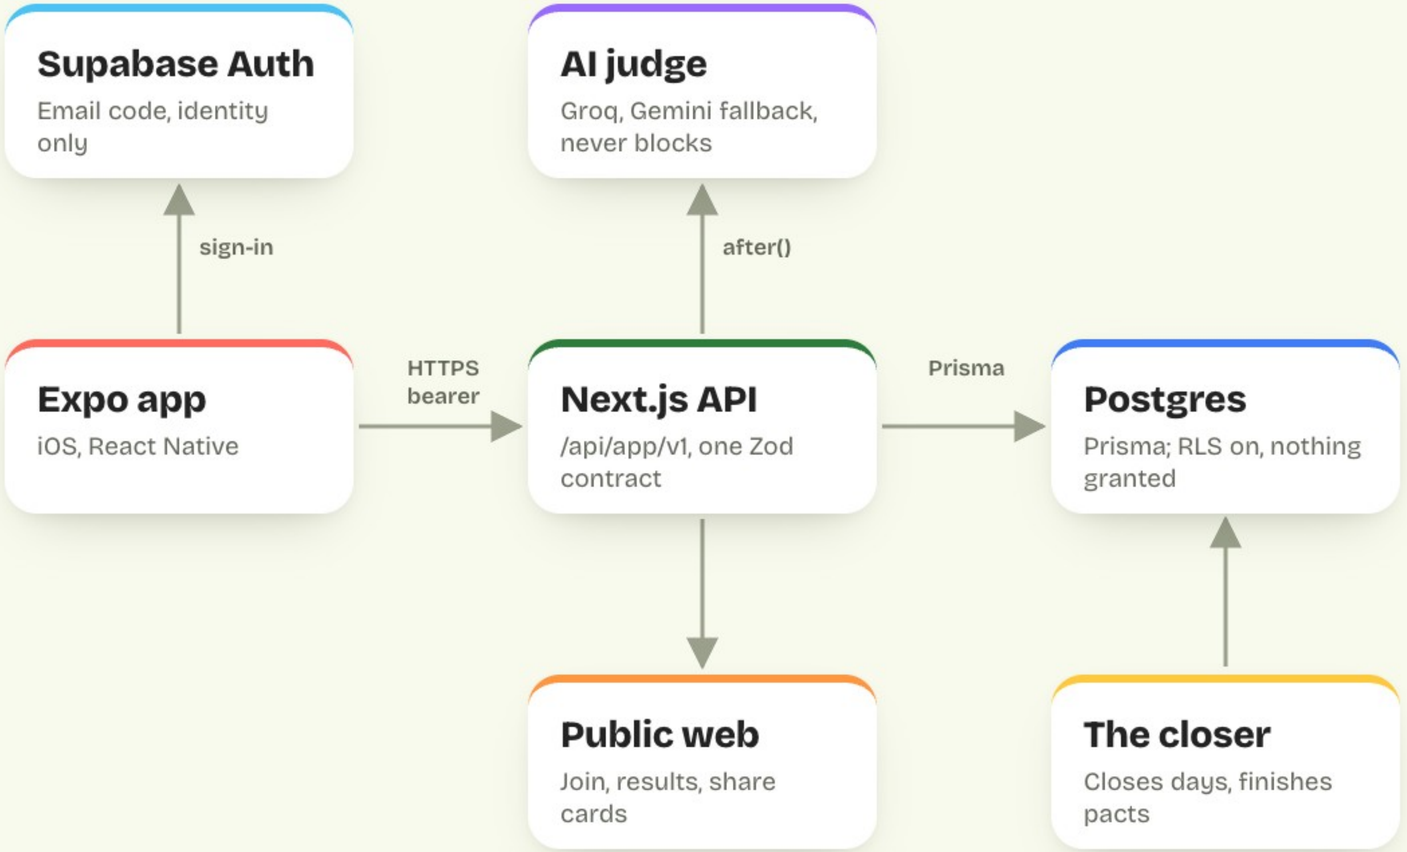

Results, awards and a card to share.

Same crew, new pact →

UNDER THE HOOD

One data path. The server decides.

DECISIONS & LIMITS

What I chose, and what's not there yet.

DECISIONS

🤝 **The AI never fails anyone**
A wrong fail hurts more than one fake.

= A full tie: nobody pays
Everybody wins.

🖼️ **A server-drawn share card**
Shipped without a new build.

HONEST LIMITS

💻 **A localhost-only trial**
Simulator build, no deploy yet.

🔔 **Push is in-app**
Closed-app push needs a paid Apple account.

✌️ **The judge miscounts fingers**
Both misses on the real-photo eval.

Thank you.

WHAT'S NEXT

- A real iPhone and TestFlight
- Deploy: live link previews, a real cron
- Push with the app closed
- A hand pass on the tap-only moments
